

## EAE / AB Suite user Meeting 8 September 2011

NH Schiphol Airport Hotel, Amsterdam, Netherlands

In the Autumn we plan to repeat our Best Practice Workshops. Additionally we are pleased to invite you to a user event for EAE and AB Suite clients to be held in Amsterdam on Thursday 8th September. Further details and registration for these events can be found at [www.clearpathfuturematters.com](http://www.clearpathfuturematters.com).

### Who should attend, and why?

This event is relevant to current EAE users, and users who have migrated to AB Suite. The morning sessions provide an update on the AB Suite program and current release status, and in the afternoon we focus on extending the value for EAE and AB Suite users through the common Client Tools capabilities.

### Where and When?

This workshop will be held at the NH Hotel close to Schiphol Airport, Amsterdam. The hotel offers shuttle services to/from the airport, and for those travelling by car, parking is available. The workshop will close at 16:00 when you are free to leave, or join us for refreshments and individual discussions with consultants. A discounted hotel rate is available on 7th September –quote “Unisys” to obtain the room rate of 99 Euro, including breakfast.

09:00 Registrations / Coffee

10:00 **Welcome and Introductions**

10:10 **Marketing update EAE / AB Suite program**

**Maarten Schneider, Worldwide marketing manager EAE and AB Suite**

A presentation to update you on the EAE program, the new Common Client Tools, the AB Suite program, EAE and AB Suite migrations around the world and other initiatives.

11:00 Break

11:30 **AB Suite technology update with demonstration of new features in IC1400**

**Rob Henrichs, EAE and AB Suite consultant**

In the last couple of ICs for AB Suite 2.0 we have delivered several important features which can be a great help for EAE developers because they provide features that make it easier to learn and easier to use. Rob will show some of these new features.

12:00 **AB Suite Debugger, ATT and BATMan test facilities, and Test Manager**

**Henk Hoogland, EAE and AB Suite consultant**

Test activities are often responsible for more than 50% of development project time. Unisys has developed different tools to reduce the manual effort for testers and enable them to deliver higher quality by concentrating on the test exceptions, rather than the test elements that succeed every time.

12:30 Lunch

13:15 **Client Tools for Business Success for EAE and AB Suite users**

**Maarten Schneider, Worldwide marketing manager EAE and AB Suite**

The world is changing rapidly into an “always online, always connected” mobile world. Maarten will give the Unisys view on this and present recent initiatives taken to enable EAE and AB Suite users to enable this new way of doing business.

13:30 **Client Tools update with demonstration of Business Integrator**

**Ching Lam, EAE and AB Suite consultant**

In today’s business world we are increasingly receiving emails, SMS, Twitter messages and/or Facebook updates as confirmation of transactions performed via the Internet. Ching will show how you could achieve this in your EAE or AB Suite environment.

14:00 **Client Tools and Mobile Devices**

**Nigel Tunnicliffe, Client Tools and Integration specialist**

Mobile devices like smart phones and iPads are being used more and more within the business environment, where end users like to use their own devices as a replacement for the traditional workstation or laptop. Nigel will address the elements you should consider in order to support these devices successfully in your organization.

14:30 Break

15:00 **Customer presentation - Client Tools implementation**

We finish with customer presentations, the first shows how an existing EAE and/or AB Suite application can be “opened up” to exist in the new “always online, always connected” mobile world.

15:30 **Customer presentation - AB Suite migration**

We have done several EAE to AB Suite migration projects. We will present one of these to give you a feeling about such projects, so it helps you to plan yours.

16:00 **End of Program, drinks and snacks**

### How to register and find further information

Go to [www.clearpathfuturematters.com](http://www.clearpathfuturematters.com) to register. You will also find the latest agenda for the workshop, and travel directions.
